EDUCATION

- **École Nationale Polytechnique d'Oran Maurice Audin** Oran, Algeria
Engineering degree - Electronics and embedded systems December 2020 - July 2023
Courses: Analog and digital electronics, object oriented programming, advanced processor, discrete control systems, software engineering, embedded systems, radio frequency systems, Antenna, artificial intelligence, robotics, radar, telecommunication.
- **École Nationale Polytechnique d'Oran Maurice Audin** Oran, Algeria
Master's degree - Electronics and embedded systems December 2020 - July 2023
Courses: Image processing, signal processing, electronic principles, computer systems.
- **École Nationale Supérieure d'Hydraulique** Blida, Algeria
Preparatory classes in science and technology September 2018 - November 2020
Courses: Analysis, Algebra, Organic chemistry, physics, rational mechanics, fluid mechanics, Strength of materials, economics.
- **Slimane Bouabdellaoui High School** Médéa, Algeria
Baccalaureate - Scientific field: 14.40/20 July 2018

SKILLS SUMMARY

- **Languages:** Python, C, C++, SQL, VHDL, Octave, Latex, Matlab, Assembly
- **Frameworks:** Scikit-learn, TensorFlow, Arduino, Mbed, ROS
- **Tools:** GIT, MySQL, Microsoft Office
- **Platforms:** Linux, Windows, Arduino, Raspberry
- **Soft Skills:** Leadership, Writing, Public Speaking, Time Management

EXPERIENCE

- **Shariket Kahraba El-Djazair-SKE** On site
Intern March 2021 - April 2021 & December 2021 - January 2022
 - **Role:** I had the chance to do 2 internships at the power plant of Berrouaghia SKE, the 1st internship was a discovery internship, the 2nd was more a concrete one by participating directly in the operations of the electrical service such as the repair of electrical machines, installation of electrical cabinets, analysis of batteries and knowing the different protocols and digital communication systems used for the automation of process.
- **LM Electric** On site
Intern June 2022 - July 2022
 - **Role:** In this internship, I was in charge of designing and installing a power supply system using EPLAN and Tia Portal.

VOLUNTEER EXPERIENCE

- **Muhandis Club** Oran, Algeria
October 2022 - July 2023
 - **Role:** My primary task is to create and curate content that can be shared on the club's social media platforms such as Facebook, Twitter, and LinkedIn, in a way that aligns with the club's mission and message.
- **American Corner Oran** Oran, Algeria
October 2021 - October 2023
 - **Role:** I organized an electronics workshop aimed at introducing the fundamental concepts of electronics to individuals who share my interest in the subject. I also participated in cultural events organized by American Corner. My participation in these events highlights my commitment to promoting cultural exchange and engagement within the community.

PROJECTS

- **Temperature Indicator:** A system that takes into account both external and internal temperatures, equipped with two temperature probes, one to be placed outside and the other inside the habitat (both to be kept in the shade). The motivation behind the development of this system stems from periods of high temperatures, during which it is recommended to ventilate the rooms at night and keep them closed during the day.
- **Arduino Based CNC Plotter Machine:** Numerous CNC machines exist globally, with some being highly technical and complex to manufacture or operate successfully. Due to this, the decision was made to construct a straightforward CNC machine based on the Arduino platform, which is by far the easiest to construct.

LANGUAGE PROFICIENCY

- Arabic - native
- English - Full professional
- French - Full professional
